Our most active customers will receive our bulletin automatically and free of charge. However, collectors interested in highly specialized areas and those who may order it frequently are asked to subscribe, as are those who want the bulletin by air mail. The names of non-subscribers may be removed from our mailing list at any time without notice.

Annual subscription rate in the United States, Puerto Rico, Canada, and Mexico, and all APOs and FPOs, is \$2.00 by regular mail or \$5.00 by air mail. Air mail to any other part of the world is \$8.50 per year. These subscriptions guarantee receipt of our monthly lists and most of our special releases. We do not recommend surface mail for foreign subscribers.

HANDLING CHARGE is 25¢ on all orders under \$5.00. Texas sales tax is 3¼%, San Antonio is 4¼%, and must be included by all Texas residents except dealers who must furnish us with their tax permit number. All prices quoted are in United States funds.

Overseas orders will be sent by registered air mail; appropriate mailing fees will be billed. We cannot be liable for coins sent to countries that do not provide for insurance.

THE COINAGE OF THE BRITISH COMMONWEALTH

Our regular customers will recall the reference volume which we released as our December, 1970 bulletin. In that issue we offered a nearly complete listing of our Latin American stock. The response to that listing was tremendous; particularly attractive to us were the several letters and notes collectors wrote saying that they were happy to have a chance to obtain the 10 cent and 15 cent coins. It is unfortunate that so many dealers offer only expensive or very popular coins thereby avoiding the low-profit circulated issues that collectors need for their date and type sets. However, until competition makes service a more important element in retailing coins, we are pleased to fill the void and offer such issues to the collectors. As we have written before - "Your happiness is our success".

This month we have listed an extensive selection of the coins of the British Commonwealth. While most of the stock is listed, time alone did keep us from listing East Africa, Guernsey, Jersey and a few others. Date and type collectors of those countries are welcome to submit want lists at any time. In fact any serious collector's want list is solicited. Please feel free to place lengthy orders for inexpensive items needed for your date and/or type collection.

MONTENEGRO

As is true of most European countries, the coinage of Montenegro has gained immensely in popularity. The series is historical, attractive, and relatively short. Most of the coins are fairly scarce; however, we have obtained a small group which we are offering at very low price levels. We suggest that our clients start this series before mass publicity forces the prices up.

WE ARE NOW PREPARING PART II OF THE MEDINA SALE. THE AUCTION CATALOGUE SHOULD
BE READY BY FEB. 10, 1971. RESERVATIONS FOR IT AND THE PRICES REALIZED ARE NOW
BEING ACCEPTED AT \$2.00, OR THE CATALOGUE ALONE FOR \$1.00. AIRMAIL IS \$1.00 EXTRA.

WE WANT TO BUY - - -

We are constantly in the market to buy rare and valuable coins and we are listing below some typical prices we are willing to pay.

We have noted that most advanced collectors tend to specialize in one or more categories such as Latin America, British Commonwealth, commemoratives, etc. Before specializing, these collectors have usually acquired many of the more valuable coins from countries or specialized fields in which they are no longer interested. Therefore, we hope that you will consider selling us these rarities in areas outside your present specialities. Of course we are also happy to buy your duplicates of any country.

We will pay the cash prices listed below or we will pay you 10% more than these prices in trade. If the coins you want in trade are not listed in this bulletin, we will issue you a credit slip which you can use at any time in the future to purchase coins from us, or which can be redeemed in cash minus the 10%.

COINS OF BOLIVIA

We were very pleased with the response to our offering of Bolivian Coins in our previous bulletins. With the political turmoil in this country, it is uncertain whether worthwhile quantities of coins will continue to be allowed to leave the country. Because of this and the fact that there is ever increasing interest in demand for this series we urge everyone to purchase them while they are still cheap. We will also like to hear from anyone having any worthwhile Bolivian Coins for sale. Just write giving date, grade, and your asking price of send in for best offer. The "BO" numbers accompanied by the description are taken from our standard reference book in Bolivia, "The Coins of Bolivia 1820-1970" by Dale Seppa and Al Almanzar. So please give "BO" numbers when ordering. The book is now available at \$3.00 postpaid and is a must for all collectors as standard reference book in Bolivia.

The following represents our complete list of Bolivian Coins with the exception of the crown size pieces which are to be found under Eight Reales and Pesos. The Colonial Issues of the Potosi Mint will be listed under cob coinage. This is not a repetition of our previous month list. Items sold out have been deleted and new acquisitions added.

ANNOUNCING A GREAT LITTLE BOOK IN NUMISMATICS

NUMISMATIC HISTORY OF THE REPUBLIC OF PANAMA By B. STICKNEY

Panamanian coinage has been the subject of many articles. Coin trends have been published about this field of numismatics. The coins of Panama have a world-wide appeal primarily because of Panama's geographical location, its association with the United States, and because of its man-made waterways used by millions of people and thousands of ships. Their popularity amongst collectors in the United States was at its peak about four or five years ago; and although it has not accelerated with the same speed, the interest has continued to increase and will continue to prevail. The real interest, however, lies in the great number of collectors in Panama itself. Considering all of these factors, it is surprising that no one up to now has compiled a book on this subject. The book which we are hereby announcing is not merely a guide for evaluations of dates in the different grades; it is a carefully researched book that took several years of historic and numismatic research in the hope to please anyone with even the slightest interest in this subject.

The following are some of the features included. Reason for popularity of the coinage, 20 pages have been devoted to numismatic history of the country, 5 pages devoted to guidance of grading Panamanian coinage by standards of the Isthmian Numismatic Society defining how each type coin should be graded, money treaties of the United States, sections about proof sets, counterfeits and, some background on paper money have been included. Finally, a price guide giving evaluations in six different grades from Very Good to Uncirculated. All types of coins are illustrated throughout the book with the same sharp photographs as shown on this sheet. High-quality paper and type-setting has been used.

We are the exclusive distributors of this book throughout the world. In Panama, wholesale and retail orders may be placed with Numismatica, Ltd., No. 14, Avenue Tivoli, Republic of Panama. Dealers are requested to write to us regarding wholesale prices. Retail price is \$3.00.

EIGHT REALES AND PESOS OF THE NEW WORLD

The first number on the left below is the number (in numerical order for each country) from Elizondo's book; the second or right hand number (the "E" number) is the Elizondo First Edition Type nr.

In the December 1st catalogue, we stated that as of the next catalogue the Second Edition Elizondo nrs. will be used. We have, however, decided to continue using the first edition nrs. and we must also apologize to those that have ordered the book and expected to receive their copy in December. The book was originally scheduled to be released about this time, however, we are experiencing a delay from the bindery as they cannot bind the books until probably after Christmas. We are in hope that the book will be delivered to us sometime in the last part of January. At that time we will be prepared to mail all of the orders as soon as possible after its release.

REGARDING THE REVISED EDITION: BOOK WILL BE ENLARGED, SHARPER AND ALL NEW PHOTOGRAPHS, COMPLETE RENUMBERING OF TYPES, NUMERICAL SEQUENCE OF DATES AND VARIETIES, MAJOR CHANGES CAN BE EXPECTED ESPECIALLY IN BOLIVIA AND PERU. THE AUTHOR WILL BE CATALOGING THE MOST COMPLETE COLLECTION OF EIGHT REALES AND PESOS OF MEXICO INCLUDING NEW TYPES AND OTHER NEW DISCOVERIES NEVER BEFORE DISCLOSED. BOOK WILL INCLUDE 260 PAGES WHICH IS 120 PAGES MORE THAN THE FIRST EDITION. PLEASE ORDER YOUR COPY NOW. PRICE 12.50

EDITORIAL

Our policy at Almanzar's Coins of the World is oriented to the collector. We do not subscribe to the theory of the "fast-buck artist" nor do we engage in the crass commercialistic promotion of common coins at exorbitant prices. We are unable to sympathize with the dealers who make their living through buying from other dealers and then reselling to the public at higher, inflated prices. It is rational for one dealer to buy from another dealer when the later is offering a coin at wholesale or if he is offering a coin that the other dealer needs specifically for his clientele. Our chief concern regards dealers/investors who hoard groups of coins or issues from a particular country until they are ready to exploit the market. Such is the case of the coinage of Switzerland, Panama, Great Britain, Canada, and others. The theory of capitalism has allowed all of us to enjoy an interesting and rewarding hobby while in general, retaining the full value of our investments. Is it moral or ethical to artificially inflate the prices of series so as to reap abnormal profits?? Do these people have any human sympathy for the buyers who then take tremendous losses when the series recedes to its proper level? Can some among our fellow "coin-collectors" be so unemotional and immoral as to overlook the welfare of the individuals involved and the hobby itself?

One might note that we used the term "coin collectors" rather than "numismatists" in the above sentence. We are unable to credit many of these scalawags with an intellectual interest in the science of numismatics. If the "numismatists" among us are really concerned with the well-being of the hobby I think it would be appropriate to discourage such dealers from engaging in such tactics. If we at Almanzar's become targets for such rebuff, we only hope that our customers and clients will encourage us to abandon such techniques. ¡ Viva Numismatics!

NOW AVAILABLE!

SECOND EDITION OF

Eight Reales & Pesos of the New World

by Carlos Elizondo, Jr.

Two years ago, the first edition was published, with 5,000 copies printed. At this time, we hold less than 12 copies. The second edition, which is now being published, is a complete reorganization of the first edition. Due to limited information and the fact that no one in the numismatic field prior to that time had undertaken this task by dates and important varieties, even the author agrees that the first edition was just a pioneering effort, leaving much to be desired.

The second edition is in 95% of the instances a compendium of the author's own fine collection. Since the days of Gutttag's, there has not existed a more complete collection from which to draw the information to create what will undoubtedly be the most thorough book ever published in the history of Latin American numismatics.

In addition to his own collection (which includes coins from the Clyde Hubbard Guatemala collection, the Skinner Klee Guatemala collection, some original pieces from the late King Farouk collection and the Pedro Bentin Mojica and Roberto Riva collections from Peru), the author has traveled extensively through Latin America and has researched what he believes to be the most comprehensive compilation of Mexican coins.

The following features have been added: * Type setting * 470 all-new sharper photographs * Complete reorganization of types, new code numbers, and therefore new discoveries, types, varieties, etc. * 260 pages (120 more than first edition) printed on high quality paper, Meads Offset Gloss Enamel * Complete revision of Mexico, reporting unpublished types and important varieties * Coins priced in three grades.

We will be the exclusive distributors throughout the world. The book is to be retailed at \$12.50 and you may order directly from us or from your dealer. Dealers write for wholesale prices.

You may also look forward to "Four Reales and Half Pesos of the New World" (release date to be announced soon) in a similar format also featuring the author's outstanding collections of 1/2 Dollar size coins.
